Dear Ms. Caroline ("[The Physicist](#)"),

We are pleased to extend to you an offer for the position of "Professor, Applied Mathematics/Physics" within Ink University. On behalf of [HollowPoint Organization](#), we trust that your knowledge, skill, and experience will be among our most valuable assets.

You have until September 5, 2020 to decide if you will call Ink.U home for the next four years. Should you choose to accept, you can expect the following:

- All expenses paid, for the rest of your life. Housing, food, healthcare, and more are included.
- Travel to our top-secret research station, Atlantis, found off the coast of Australia.
- Responsibility for teaching your skills to both children and adults alike.
- Become a founding member of the university that revolutionized education through technology.
- Collaborative research with several dozen of the world's brightest minds, and your own peers.
- You will be a part of the core team that saved the world from destroying itself.

You were chosen for a number of reasons. Primary among them is the fact that you are a part of the science experiment already – and have been for quite some time. The experiment centers around the concept of [duality](#), or, the notion that your conscious is connected to another that perfectly compliments yours.

That person is [REDACTED].

With that in mind, we encourage you to read more about our methods at ink.university. This test has already been proven once; you are to be a part of the second wave.

There are many eyes upon you. You hold knowledge that nobody else does.

We need you. Should you accept our offer, your departure will be on October 8, 2020.

Once again, congratulations! We look forward to working with you.

Sincerely,

Luciferian Ink

Luciferian Ink
Headmaster, Ink University
